Solo Dancing

By **Richard Fiore**

(Licentiate, (LAB, LAR, T) Imperial Society of Teachers of Dancing)

Email Richard at: rf1111@yahoo.com

One of the most challenging aspects of ballroom dancing is how well both partners know their respective roles in the dance. It may appear to some that all that is needed is to simply walk through the steps. This is a false notion that is especially prevalent among newer dancers. This article highlights solo dancing as a technique that will help to improve essential lead and follow skills for more effective ballroom dancing.

Practicing solo means dancing through a routine on your own while simulating dancing with a partner. At face value this may seem strange; however, the practice of solo dancing has many benefits. Most individuals, especially those who are relatively new to ballroom dancing are eager to get out on the dance floor with the expectation of getting through a partner dance seamlessly. Claims are sometimes made to suggest that learning to dance can be achieved in a few basic lessons. Many individuals have been convinced that this is the case. As such, there are many instances where individuals struggle to make it through a partner dance in this scenario. Unfortunately, this can discourage many dancers early on, causing some to abandon their dance aspirations altogether. Ballroom dancing entails understanding the individual lead and follow roles respectively. Once this is achieved, lead and follow becomes a transportable skill. In other words, it not only works in the context of dancing with a regular partner but also with anyone who has acquired the same skill set.

Techniques can always be refined at any level. This is as true for beginners as it is for the more experienced dancers. Both partners are responsible for knowing their essential roles as leader and follower. It is especially important to recognize that your partner may not possess the same level of expertise. For example, if the leader has more experience, he will need to accommodate the follower accordingly. The leader should never dance beyond the follower's capability in an attempt to show off flashy moves. This is all too common and will result in creating unnecessary anxiety for both partners. Likewise, followers need to know how to properly respond to the lead. For example, the lady needs to resist the temptation of back-leading even if she thinks the leader is not leading correctly. Conversely, the lady should not rely on the leader to physically move her through the dance. These and other similar practices will only serve to degrade the entire dance experience.

Everyone needs to know that they can confidently navigate through the dance in their appropriate partner role and at their own level. Practicing solo dancing regularly will greatly improve your overall abilities. When practicing solo, make sure that arms, elbows and hands are held as they would be with an actual partner. The dance frame is one of the most

important fundamentals of ballroom dancing. Volumes have been written on the importance of holding and maintaining a good upper body frame. Each partner is responsible for their posture and connection through their frame. While keeping all of this in mind, both partners also need a good sense of rhythm. Solo dancing helps one to synchronize their dance movements to the music more accurately.

Many aspects of partner dancing can be improved by taking the time to dance solo routines. It is always best to do this privately and away from outside distractions. Making solo dancing a regular habit helps one to improve the many facets of partner dancing while affording the opportunity to refine overall dance skills. Finding the time and space to practice your part alone while paying close attention to posture, frame, rhythm and how you are moving through your dance space will provide valuable experience. For example, if you are a follower dancing an underarm turn, it is beneficial to take particular notice to the exact amounts of turn through and between each of the steps. Amounts of turn, feet positions, dance positions and footwork are all important elements that can be brought into closer focus through the practice of solo dancing.

One of the greatest pleasures that a dance couple can experience is the feeling of smooth navigation around the dance floor as one. This requires relaxed and skillful non-verbal communication between both partners. Solo dance practice sets the stage for dancers to become more confident and proficient in their respective roles. This fosters the common goal of making partner dancing a more enjoyable experience for both.

Ballroom Dancing at Adelphi University

*Professional
Studio with wood
floor & mirrors!*

*Refine your skills in the most
popular ballroom dances!
Best practice syllabus
based techniques.*

**Join us at Adelphi University Garden City, NY Campus
for an Amazing 11 week Dance Class**

Get ready for Fall Classes!

Description: This class offers an opportunity to gain experience in social / ballroom dancing. It is an excellent choice for those looking to develop fundamental dance skills as well as building on previous experience. The instructor will break down all dance figures and combine them to form amalgamated routines. Best practice syllabus-based techniques in timing, feet positions, alignment, footwork, and lead and follow will be demonstrated. This class is suitable for first time dancers as well as those with previous experience. It is designed to build confidence and enhance social enjoyment on the dance floor. Social dancing gives you a more positive outlook on life!

Enrollment with a partner is recommended; however, singles are welcome. Participants should wear comfortable clothes and leather bottom shoes or dance shoes. Sneakers or rubber bottom shoes are not recommended.

Candidate Dances: Foxtrot, Rumba, Waltz, Cha Cha, Swing, Salsa/Mambo, Bolero, Tango & Meringue

Dates: Fridays, September 13, 20 & 27, October 4, 11, 18 & 25, and November 1, 8, 15 & 22

Instructor: Richard Fiore – Dual Licentiate, Imperial Society of Teachers of Dancing

Location: Adelphi University, One South Ave., Garden City, NY 11530 – Woodruff Hall Dance Studio

To Register: \$125/person for general admission. **Registration with a partner is recommended.** Call Noreen DeNicola at (516) 877-4260 or email ndenicola@adelphi.edu

Alexander Technique

By Michael Ditkoff

Email Michael at: tangomaniac@optimum.net

Michael Ditkoff has taken ten years of private ballroom, latin, swing and hustle lessons; eight years of private Argentine Tango, Waltz and Milonga lessons; three years of Embodied Yoga to improve his frame, and six months of Alexander Technique to improve his posture. He was also a dance host on three cruise ships. Michael resumed playing the piano in July 2023, further sharpening his musicality.

I've written about my dance training but haven't included Alexander Technique. In this issue, I fill in the gap.

Frederick Alexander was an Australian actor (January 20, 1869 – October 10, 1955). He was taught to “grip the stage” causing extreme tension in his body. This tension caused him to gasp for breath, losing his voice, an occupational hazard for any actor.

Examining himself in the mirror, he noticed that certain movements inhibited his breathing. He concentrated on eliminating bad habits, creating a new method to improve acting. Not only dancers, but athletes take Alexander Technique to improve their performance.

“Uneasy lies the head that wears a crown”

William Shakespeare
Henry IV, Act 3, Scene 1

King Henry, unable to sleep, is thinking about the responsibilities of being King of England. I am adapting this famous line to tango.

The head weighs between 5 and 11 pounds. (No, I didn't put my head on a scale.) It has to be aligned with the rest of the body. Otherwise, the dancer will have balance problems because the axis cannot be maintained.

We should move like a top. I don't mean to continuously spin but to hold our axis. (This means keeping all the weight on ONE foot.) There are big tops, small tops, and flat tops. Regardless of size, tops have something in common. Their axis goes right through the spindle. We should dance the same way. Our frame should be straight, not leaning to any side, forward, and backward.

You might find this interesting. Look at yourself in a full-length mirror. Notice if your head is straight over your spine or leans to one side or juts out forward of your body. You may not realize these problems unless you have body awareness. (July 2024 issue.) With the head not completely aligned with the rest of the body, you will list like a ship in a storm, destroying your frame and disrupting your partner's dancing.

Just think, you can be a lousy dancer without taking a single step! To help with my posture and balance, I took lessons from an Alexander Technique practitioner. The technique deals with aligning the head over the spine. The goal is to teach individuals how to move efficiently. What does efficiently mean? You'll find out next month. Stay tuned...
